# **ZHENG NING**

Ph.D. Student, University of Notre Dame, Notre Dame, USA

**Z**ning@nd.edu | **↑** https://zning.co

#### RESEARCH INTEREST

My research focuses on designing, building, and evaluating interactive systems that leverage multimodal AI models to help users engage with content across various modalities. More recently, my work has explored the representation and transformation of different modalities (e.g., visual, audio, text) and formats (e.g., charts, tables, documents). Additionally, I investigate how to align human multimodal perceptions (e.g., touch, smell, sight) with the multimodal understanding capabilities of AI agents to streamline user workflows.

**Keywords:** Human-Computer Interaction, Applied Machine Learning, Multi-Modal Interaction, End-User Development, Accessibility and GenAI.

### **EDUCATION**

## Ph.D. in Human-Computer Interaction

2021 - Present

University of Notre Dame, IN, USA

Advisor: Toby Jia-Jun Li

### B.S. with Distinction in Electrical Engineering

2016 - 2020

University of Electronic Science & Technology of China, Chengdu, China

Dual degree program with University of Glasgow, Glasgow, UK

## INDUSTRIAL EXPERIENCE

Microsoft Research

May – Aug 2024

Host: Nathalie Riche and Nicolai Marquardt

Redmond, WA

Led the design and implementation of a research prototype to investigate how generative AI can enhance existing workflows. Focus on scenarios where users interact with data across various formats and modalities simultaneously, across both individual and collaborative settings, on single or multiple devices.

Adobe Research Aug – Oct 2023

Host: Dingzeyu Li, and Mira Dontcheva

Seattle, WA

Developed an LLM-based AI agent in Adobe Premiere Pro (Pr) to accelerate the video rough-cut process for creators. Collaborated closely with the Pr product team and user research team.

Adobe Research

May – Aug 2023

Host: Dingzeyu Li, Valentina Shin, Mackenzie Leake, and Mira Dontcheva

Seattle, WA

Designed and developed a human-AI collaborative system using GenAI to streamline content editing and visual enhancement for video podcasts creators. Additionally contributed to the development of a related system for creating video podcast teasers.

### **TEACHING EXPERIENCE**

## Teaching Assistant, CSE 40748: Human-AI Collaborative Systems

2025

Department of Computer Science and Engineering, University of Notre Dame

Instructor: Prof. Toby Jia-Jun Li

## Teaching Assistant, CSE 20289: Systems Programming

2022

Department of Computer Science and Engineering, University of Notre Dame

Instructor: Prof. Collin McMillan

## Teaching Assistant, CSE 40868: Neural Networks

2022

Department of Computer Science and Engineering, University of Notre Dame

Instructor: Prof. Adam Czajka

### **LANGUAGES**

English - Native and bilingual proficiency, Chinese (Mandarin) - Native and bilingual proficiency

### **TECHNICAL SKILLS**

**Program Languages:** Typescript, React, Python, Pytorch, SQL

**Softwares:** Figma, Premiere Pro, PhotoShop, Tableau, SPSS

**UX Skills:** Qualitative Research, Quantitative Research, UX Design
